

Protocol for Trading Ice

1. Teams will be assigned ice on a rotational basis to equally distribute all ice times (both Prime and non-Prime) available to the organization. Every organization within the City is scheduled 20-25% of non-prime ice.
2. These times will be tracked by the scheduler to ensure that this distribution is equitable over the duration of the season.
3. If a team cannot utilize an assigned ice time, then it is the team's (Coach/manager) responsibility to contact another team to arrange a trade of ice time. NOASSIGNED ICE WOLVES ICE SHALL SIT UNUSED. This will be monitored by the City and ice will be readjusted.
4. The schedulers do not need to know about these trades, as they will only track the ice that was originally assigned to each team.
5. If this was a game time then the team will be responsible for contacting Ria Berry, providing at least 24 hour notice, ria.berry@sympatico.ca 384-1511 as she will need to reschedule or cancel the timekeeper and refs.
6. Please make changes in a timely manner as it is difficult to communicate changes to team members.
7. Please advise all parents/players that the schedule on the web (when available) may not be accurate as it will not contain the traded ice.
